

'N Sync, I thought she knew

Uh-uh-uh...

She was my once-in-a-lifetime
happy ending come'n true
Oh, I guess I should've told her
I thought she knew...

Do-do-do...

She said I took her for granted
that's the last thing I would do
Whoa, I'll never understand it
I thought she knew...

I thought she knew
my world revolved around her
my love light burned for her alone
but she couldn't see the flame
only myself to blame
I should've known...

I should've known

Do-do-do...

A heart full of words left unspoken
now that we're through
I tear my soul to where the silence's broken
Oh, I thought she knew..

I though she knew
my world revolved around her
my love light burned for her alone
but she couldn't see the flame
only myself to blame
I should've known...

I should've known

She was my once in a lifetime
happy ending come'n true
Whoa, I guess I should have told her
but I thought she knew
I thought she knew
I thought she knew...
I..though..that..she..knew...
