

'N Sync, Riddle

What's the riddle of it all
What's the riddle on her mind
It's impossible to find
I am out to find the solving key
To this woman's mystery
I need to see her more than I dream her
More than two secret eyes
What is going on what is going on in her life
What is showing up what is showing up in her smile
What's the riddle of it all
What's the riddle on her mind
It's imposibble to find
What's the riddle of it all
What's the riddle on her mind
It's impossible to find
She, she breezes in, yes I can win
It seems I conquer all my soul
So I can reach her heart cause she's
Too far from being touched
What is going on what is going on in her life
What is showing up what is showing up in her smile
CHORUS
I am only scared from wonder
From delirious I'm running
Tell me where's this source of magic
This hide and seek makes me an addict
CHORUS
