

# N-Trigue, Neverland (Feat. Flo Rida)

You've got something more tonight  
Find my way to the morning light  
Every night when we reload  
Let my heart here...  
You and me  
Chase the world I see  
Every moment I can breath  
Looking through your eyes I'm free  
Cause I'm living in Neverland  
You're moving with my heart, heart in your hands  
You know I feel and come up up ...?  
You know I'm living living like neverland  
You that is Neverland  
Never, Neverland

Never, Never, Neverland
