

N-Trigue, Roll Me Like Dice (Ft. Snoop Dogg)

You know, you know it taste so good
Boy you love the way I love you know I mean too

Yeah hey pics in the hey twist the draw
With the pedal to the middle go against the floor
Hot power is the label mister criminal
Common young low let me hit that home
___ the first lady on
West coast to the bullets tryin to show your love
No doubt don?t clap tryin to burn that out
If I see a little freak i?ma turn

Take me to the land of make believe
Shake my world so I can barely breathe
Touch me whether you?re a shooting star
Roll the dice now baby we can go far
Take me

And a hot one, you know what I mean
I?m like fire fire

Take me, with every second of my life
Take me, take me and roll me like a dice
Take me, with every touch I really need you to take me
Roll me like a dice

You?re like don?t wanna phone
You?re going down down down
So unforgettable
I keep you around round down

Take me to the land of make believe
Shake my world so I can barely breathe
Touch me whether you?re a shooting star
Roll the dice now baby we can go far
Take me, breathe breathe breathe..

I?m life fire

Take me, with every second of my life
Take me, take me and roll me like a dice
Take me, with every touch I really need you to take me
Roll me like a dice

Get me cooked smash out in my roll the coat
Next level - hand on the wheel
Pressing on the pedal, doing the pimp say
Maybe cali in so waste move check this move
Stop by, wait fly, slip by
On the low stole the show
What it do, brand new, deja vu
Maybe you baby blue what it do

Take me
Your sexy is on fire
Take me
Your sexy is on fire
Take me
Your sexy is on fire
Fire fire fire

Your sex is on fore

Take me, with every second of my life

Take me, take me and roll me like a dice
Take me, with every touch I really need you to take me
Roll me like a dice

Shake shake shake...
Take me
Shake shake shake...
Take me
Your sex is on fire
