

# Na Leo Pilimehana, Candle In The Night

It's so nice to be with you  
though you never were alone  
it's so nice to see your smile  
whenever things just seemed so wrong  
when i'm near you all my troubles seem  
to fade and dissappear  
and for a while i see my dreams come shining through  
it's so nice to make beleive  
you and I are so in love  
I awaken every morning holding you in my arms  
when you're near me all my days just seem  
to hurry by so soon  
and for a while I dreamt I'd spend my life loving you

Chorus:

I'll burn a candle in the night  
and hope that soon it's flickering light  
will guide you here to me  
and I'll keep the fire burning strong  
hope it won't take too long  
for you to come to me  
It's so nice to think of you  
every night and every day  
How you brighten every moment  
by the things you do and say  
When I'm near you nothing else would seem  
to matter anymore  
and for a while I dream you're running back home to me

Chorus

hope it won't take too long..for you to come to me  
hope it won't take too long..for you to come to....  
come to me
