

# Nada Surf, Sleep

Step in my shoes, wait 'till you see the big flash now  
Glued to the sheets, sleep with the sheep all month long  
Easy to please, hard to believe it's a tease  
Stuck in a rut, don't give a fuck if we're us  
Lie in a haze, hope it's a phase and not hate  
You know that I know that you know that I know that you know  
I want you to kiss me  
I want you to kiss me  
I try to open my eyes to the days going by  
But the trash in everything it keeps me hypnotized  
I'm hypnotized  
I got the poison in me but it's amplified  
Amplified
