

# Nada Surf, Stalemate

stalemate  
when do i jump out of the cake  
when do we admit it's a fake  
when do we jump out of the cake  
I'm the nervous watcher  
and i watch  
time to turn it on  
but i turn it off  
70% of the time  
i watch useless and over the line  
stuck  
stalemate  
jailbreak  
when do we admit it's not safe  
it's not safe in a jail  
it's not safe in a safe  
should have been a wreck  
might have been a wreck  
i don't know how it could last  
i don't know why it doesn't crash  
stalemate  
when do i jump out of the cake
