

# Nada Surf, What Is Your Secret?

So we sat and talked  
And then we walked and talked  
But said it was the truth  
What is your secret?  
Dragged it on and on  
Even favorite songs  
But your division's wrong  
What is your secret?  
I don't care about you anymore  
The people got tired  
Our movies don't play much anymore  
The actress was fired  
You said you were yourself  
Not being someone else  
That this was new for you  
What is your secret?  
You said just what i said  
Like it came from your head  
so what's the needle pet?  
What is your secret?  
I don't care about you anymore  
People got tired of  
Our movies don't play much anymore  
The actress was fired  
I don't think about you  
I try not to think about you  
You want to control  
You want to be controlled  
You're like a little switch  
And then you take your time  
you lived a reckless twist  
i wasn't made for this  
think i've been locked for long  
the city's so big
