

Nada Surf, Your Legs Grow

If you were here, baby we'd increase the dose.
There was no fear in my room when we got close.
Call me anytime you've got a ghost.
You're the only person in the world I feel that way about.
And if you move off to the side, I'll get swept back out
Where it's cold but not that deep, cause your legs grow.
Cold but not that deep, cause your legs grow.
And there's a light that rises up from the bottom of the lake.
And its beam has hit me hard
Now I'm wide awake
Where it's cold but not that deep, cause your legs grow
Cold but not that deep, cause your legs grow
Cold but not that deep, cause your legs grow
Cold but not that deep, cause your legs grow.
If you were here, baby we'd increase the dose.
There was no fear in my room when we got close.
Call me anytime you've got a ghost
