

Nadia, Beatman

Hey beat man do the beat
Hey beat man do the beat
Hey beat man do the beat
Hey beat man do the beat
The beat beat beat right trough your soul
The beat beat beat down to your feet
The beat beat beat inside your mind
The beat beat beat

The rhythm inside me

Don't be afraid to loose yourself
Let the music take control
And travel into another world

I gotta gotta gotta move
I gotta gotta gotta move
I gotta gotta gotta move
To the beat to the beat

Feel the vibe growing
Let your body express

No right no wrong
Only the beat.

You're dancing in my mind
Your moving inside me
Your dancing in my mind
I feel the heat divine
It's moving inside me

Hey beat man do the beat
The beat beat beat right trough your soul
The beat beat beat down to your feet
The beat beat beat inside your mind

The rhythm inside me

Your dancing in my mind
Your moving inside me
Your dancing in my mind
I feel the heat divine
It's moving inside me
