

Nadia Oh (Feat. Space Cowboy), Got Your Number

Do you remember
when we first met? (Oh)
The way you looked (yeah)
I cant forget
I smiled at you
And you smiled back
It felt just like a heart attack
It happened time and time again
I couldnt wait to see you again
Your big brown eyes
Your curly hair
And this is what I said
I didnt even care Oh

Chorus

I know your name
I got your number
I know your game
And now I wonder
If you want me
Like I want you
I got your name
And I got your number
Now I dont know
Quite what to do
Cause all I think of
Is calling you
But do you feel
the same way too?
Cause I know I
Im feeling you
Dont get it twisted
I know Im hot
Just need to know
If you feel me or not
I know your name
I got your number
And if you want me baby
I can come over

CHORUS

I know your name
I got your number
I know your game
And now I wonder
If you want me
Like I want you
I got your name
And I got your number
All I want to do
Is see you again
All I want to do
Is see you again

CHORUS

I know your name I got your number
