

Naguale, Positive (ft. Saya)

Be more positive, baby
Cause I feel you're the only one, and I'll be down
So be positive, baby
Just together we can change
So be more positive, baby
Cause I feel you're the only one, so I've been down
So be positive, baby
Just together we can change the word, the world, and yeah, yeah
'Cause I feel you're the only one and I've been down
'Cause I feel you're the only one and I've been down
'Cause I feel you're the only one and I've been down
And I'm stronger!

When you sigh don't leave for therapy
Is the only remedy
So it's only up to you to get it right in time
Space fight, wars, the economy falls
Television gets all our hopes crushed in a war
If you like, never ever goes wrong
Remember this song, this song
Be more positive, baby
'Cause I feel you're the only one, and I'll be down
So be positive, baby
Just together we can change
So be more positive, baby

'Cause I feel you're the only one, so I've been down
So be positive, baby
Just together we can change
You're on your...
Never ever let anyone act like we know
Put on a smile and wear it all day
Close your eyes, imagine it's OK
You're just as happy as you let yourself be
No matter who loves you and who is your enemy
Nice when you go, put your head down to rest..

Be more positive, baby
'Cause I feel you're the only one, and I'll be down
So be positive, baby
Just together we can change
So be more positive, baby
'Cause I feel you're the only one, so I've been down
So be positive, baby
Just together we can change
