

Nailbomb, Blind and Lost

Never learn, never learn
Have to be part of something
Never learn, never learn
Follow the leader, you'll fit in
Where's your thoughts
Where's your mind
Blind and lost
Never think, never think
Have to be just like they are
Never think, never think
It's alright, give up your life
Where's your thoughts
Where's your mind
Blind and lost
Where's your thoughts
Where's your mind
Blind and lost
