

Nailbomb, Sick Life

A dark room is my world
Life no longer turns me on
Forget my friends
That already forgot me
Love me,
Dig me,
Cause I hate myself
The needle in, the brain out,
Don't know what I'm doing
The needle is a bullet in my head
FUCK!
Love me,
Dig me,
Cause I hate myself
Fucked up looks good, feels good, happy?
With yourself now you got no attention
Don't take part, demanding more
You're predictable and fucking boring
Two faces one for me and one for you, happy?
Same mistakes over and over
Getting away with it
I can't get over that
Getting away with it
A dark room is my world
Life no longer turns me on
Forget my friends
That already forgot me
FUCK!
Love me,
Dig me,
Cause I hate myself
Cause I hate myself
Cause I hate myself
Cause I hate myself
Cause I hate myself
