

# Nailbomb, Sick Life

A dark room is my world  
Life no longer turns me on  
Forget my friends  
That already forgot me  
Love me,  
Dig me,  
Cause I hate myself  
The needle in, the brain out,  
Don't know what I'm doing  
The needle is a bullet in my head  
FUCK!  
Love me,  
Dig me,  
Cause I hate myself  
Fucked up looks good, feels good, happy?  
With yourself now you got no attention  
Don't take part, demanding more  
You're predictable and fucking boring  
Two faces one for me and one for you, happy?  
Same mistakes over and over  
Getting away with it  
I can't get over that  
Getting away with it  
A dark room is my world  
Life no longer turns me on  
Forget my friends  
That already forgot me  
FUCK!  
Love me,  
Dig me,  
Cause I hate myself  
Cause I hate myself  
Cause I hate myself  
Cause I hate myself  
Cause I hate myself
