

Najwa Nimri, Near The Air

No more coloured flags filling my sky
No more coloured flags filling my mind
It is a time of weapons after all

Crushed by the need
Crushed for money
Crushed by the silence
Money that breaks you down

No more sacrifice
No more sacrifice

Near the air
I want you near my sky
Near the air
And around (no round) (x2)

Near the air
I want you
Near the air
Something it's waiting
Some big miracle
'Cause i know what money buys
Silence and time
I know what money buys
Never the sky

(no round, no round, no round...)

No more coloured flags filling my sky
No more coloured flags filling my mind
It is a time of weapons after all

(no round)

Crushed by the need
Need for money
Crushed by the silence
Money that breaks you down

Near the air
I want you
Near the air
Something it's waiting
Some big miracle
'Cause i know what money buys
Silence and time
I know what money buys
Never the sky

(no round,
I want my money,
I want your money
No round
He wants your money
Stays for a whipping time) (x4)
