Stay away, stay away, stay away -don't come near me Stay away, stay away, stay away Stay away, stay away, stay away -i don't need your shit

A friend was over the other night

She and her boyfriend had been in a fight He beat her 'til she was black and blue She said he threatened to kill her too He's been stalking her for weeks now Says there's nothing she can do A court order will not stop him Now she went and bought a gun -better

Stay away, stay away, stay away stay away, stay away, stay away, stay away, stay away stay away, stay away, stay away -i don't need your shit stay away, s
