

# Namco, Edge of Soul

TO LOVE! TO SHINE!

We all need to shine on to see  
How far we've come on our journey  
How far yet to go searchin' for our star  
Deep in the night I pray in my heart  
For that special light

To shower me with love  
To shower me with power

To shine from above  
I gotta get to the Edge of Soul

To carry on what I believed  
In from the very start

I gotta get to the Edge of Soul  
To carry on deep in my heart

TO LOVE! TO SHINE!

TO LOVE! TO SHINE!

Come strip down and face it, your all  
'Bout time you broke down your wall

Free your mid, a brand new world  
Waits for you, you'll find

Nobody can just do it for you  
It's time that you knew

It's up to you to love

It's up to you to shine

The light true'n blue

You gotta get to the Edge of Soul

To carry on what you believe

In from the very start

You gotta get to the Edge of Soul

To carry on what you believe

In from the very start

You gotta get to the Edge of Soul

To carry on what you believe

In from the very start

You gotta get to the Edge of Soul

To carry on deep in your heart

TO LOVE! TO SHINE!

TO LOVE! TO SHINE!
