

Name Taken, Life Goes By

What's going on
What's happening to me
I can't quite describe
What's missing
It feels like too much
That I should know
The years gone by,
Where'd they go?
Where'd they go?

[Chorus]
Is life passing me by?
Have I missed my try?
When everyone has gone
It feels like I'm stuck here

They've all grown up
Some have moved on
And I miss them,
It's been too long
They've completed their hopes
Fulfilled their dreams
All except, except for me

[Chorus]

Forget about me
Forget about me
Forget about me

Don't forget,
Please, don't forget about me
About me
