Name Taken, Life Goes By

What's going on
What's happening to me
I can't quite describe
What's missing
It feels like too much
That I should know
The years gone by,
Where'd they go?
Where'd they go?

[Chorus]
Is life passing me by?
Have I missed my try?
When everyone has gone
It feels like I'm stuck here

They've all grown up Some have moved on And I miss them, It's been too long They've completed their hopes Fulfilled their dreams All except, except for me

[Chorus]

Forget about me Forget about me Forget about me

Don't forget, Please, don't forget about me About me
