

# Nana Kitade, Kiss or Kiss (English Version)

Kiss! Kiss! I really want you to kiss!  
Hug me more, Feel me more, love me more  
Than your words can say  
Stare at me from deep in your heart  
Am I truly the only one you adore?  
Let me know with your eyes. And until I melt, KISS or KISS  
Now you're gazing at my smile,  
But you can never read everything what I think  
Exactly the same holds for me,  
We have to take it all in uncertainty  
No matter how long we've been shared,  
Two cannot be united into one  
There's a tall wall stands between us  
Like our skin, diving me from you  
So Kiss! Kiss! I really want you to kiss!  
Hug me more, Feel me more, love me more  
Than your words can say  
Touch me harder from deep in your heart  
Am I truly the only one you adore?  
Let me know with your arms, And give me more KISS or KISS.  
I already know, Love that is  
Just kind of tenderness is never enough  
It's just spilling over and falling out  
So it makes me feel that I'm all alone  
We did believe in a perfect love  
'Cause it seems to be so abiding  
But there are no dreams last forever  
Oh Please, don't awake from this  
So Kiss! Kiss! I really want you to kiss!  
Hug me more, Feel me more, love me more  
Than your words can say  
Touch me harder from deep in your heart  
Am I truly the only one you adore?  
Let me know with your arms Again, again KISS or KISS.  
Though we may never meet someone  
Who is said to be the right person,  
It doesn't matter. Now or never,  
'Cause you and I have met up here, and so...  
Kiss! Kiss! I really want you to kiss!  
Hug me more, Feel me more, love me more  
Than your words can say  
Stare at me from deep in your heart  
Am I truly the only one you adore?  
Let me know with your eyes, And give me more KISS or KISS
