

# Nana Mouskouri, I Love My Man

I love my man  
When he is good or mean  
I love my man  
That's easely seen  
Some folks will never know  
They will never understand  
What it means to a woman  
To love her man

I love my man  
There ain't noyhing gonna change this  
I love my man  
With each new kiss  
More and more  
I'll be there when he wants me  
I'll be there when he needs me  
I'll find him  
I'll always stand  
Cause I love my man  
I love my man
