

# Nana Mouskouri, Song For You

1-

Eyes that warm my heart just like the sun  
In them I can see a million days to come  
There beneath the sky  
Besides the one who brings me happiness  
How can I express

R-

This is the sound of my heart  
Whispering softly in the dark  
Words that are simple and true  
This is my song for you

Love is the music I find  
In every breath, every sigh  
One precious gift shared by two  
This is my song for you

2-

Hold me close I need to feel you near  
Oh! You are the joy inside of every tear  
And I've always known  
That words alone could never quite reveal  
This love I feel

3-

Love will rhyme the rhythm  
Time will turn the page  
I will see forever  
Every time I see your face

4-

U-u-u-u-u  
This my song for you
