

# Nana Mouskouri, Till There Was You

Rachael Starr-Till There Was You

what in the world is a girl to do  
when in this smokey place i only see you  
was far away when you caught my eye  
you've brought me back and now you're mak'n me hi

i was alone out there, with no one else around,  
now i've fallen for you, and there's no coming down

till there was you, i know what you're needing,  
my thoughts are leading, me straight into your eyes,  
what can i do, i'm looking right at you,  
this feeling is all new, i want you addicted to me,

addicted to me.....

faith can act in a curious way,  
when all that mattered means nothing today,  
all that concerns me, that drenches my thoughts,  
is the sensation that seeing you brought,

i was alone out there, with no one else around  
now i've fallen for you, and there's no coming down

till there was you, i know what you're needing,  
my thoughts are leading, me straight into your eyes,  
what can i do, i'm looking right at you,  
this feeling is all new, i want you addicted to me
