

Nanette Workman, Vanilla Blues Caf

since the night that you went away
I live with your memory day by day
Now there's space in me
Where you used to be

I get the blues and I sit and cry
I feel so bad I just wanna die
What am I gonna do
In my life without you

(Chorus)
I remember you and me and the way we used to be
And I start callin' yeah
Come back, come back

I guess there's nothing I could do about it
I'm gonna get over you, it's just a matter of time
Never though I'd be so low down
Since I got you under my skin

Now I toss and turn at night, don't get a wink of sleep
Since you walked out the door of my
vanilla blues cafe
