

# Napalm Death, Persona Non Grata

Trodden down like shit underfoot  
Be the downside to others upsides  
Last one to the table - just starve

You'll get what you're given

This is set in stone from the ivory towers  
Perception above all -  
When you're face down in the dirt

Irreversibly persona non grata -  
A figure off ill distinction  
Persona non grata -  
The place for blame diversion

No matter the plaudits I earn  
The whoring and scoring for points  
To strive to be superficial  
I'll live by your status

This is knowing your place beneath the ivory towers  
Not a going concern  
But a lowly beast of burden
