

Napalm Death, Walls

(SIEGE)

Walls that part humanity
Over which I cannot see
Walls as old as history
Cast a shadow over me

Break down the walls
Take down them all
Break down the
Take down the
Shake down the

Walls that divide the nations
Keep them in isolation
Segregate the populations
Beat down the opposition

Break down the walls
Take down them all
Break down the
Take down the
Shake down the

Barriers that divide
Trapping me inside
Bring apartheid to an end
Cross the border
Make a friend

Break down the walls
Take down them all
Break down the
Take down the
Shake down the walls
