

# Narcoze, Into the Light

Looking for better days  
You feel something new  
and then you know you're not  
the same anymore  
So you try to hear the angel's song  
You've been trying to lie to yourself  
You're scared to live your life  
Tied to the past  
Now it's time let yourself go on  
Take my soul  
Into the light  
Say my name  
So I can touch the sky  
When everybody think you're down  
You know dee inside  
Yu can live better days  
if you walk into the light  
You don't wanna de alne no more  
Keep your head up  
make your life go on
