## Narnia, Can't Get Enough Of You

(this song appeared in japanese release)

The sun is shining in my face Four winds are blowing in my hair

Want to explain what I feel Want to be with you Want to explain what I see When your love breaks through

Can't get enough of you I know your love is true Can't get enough of you Give my heart to you

When I'm lost and lonely I the night Lord you give me strength Give me strength to fight

Want to explain what I feel Want to be with you Want to explain what I see When your love breaks through

Can't get enough of you I know your love is true Can't get enough of you I give my heart to you
