

# Nasum, Evacuate The Earth

Evacuate the earth! What else can we do?  
Evacuate the earth! Time is running short...  
No time for repentance, no time for regret -  
just leave this forsaken ground  
The dream about the utopia  
is just an inversion of the truth

Succumb - the horror, invoke - the end

Evacuate the earth! End all while you can  
Evacuate the earth! Do not postpone your fate  
Leave all the chaos, leave all the turmoil -  
leave this carcass called earth  
When all hope is lost, close your eyes  
and fall into the illusion

Succumb - the horror, invoke - the end
