

Nasum, Face Obliteration

For years you have wandered around
Without getting any real knowledge
In the coil of despair you will suffer
If you don't change your pace

Let me state out this fact for you:
Protest against the system or face obliteration

The divine leaders are still manipulating
Your fucked up mind
Shared my knowledge or drown in
Your narrowminded ignorance

Let me state out this fact for you:
Protest against the system or face obliteration
