

# Nasum, Illogic

(Music & lyrics: Jesper Liverod)

A new wave of slander, hid as logic  
Washed upon our shores  
Reason be ignored  
It seems shame relives and breathes again

I defy you  
- the old beast awakened again  
Despise you  
- the old beast awakened again

Cultural diversity  
Was always a good thing to me  
Don't give me that excuse  
You fascist fucking fool  
I'll call to arms  
Unto the enemy within  
A farce turned into darkness  
I won't be your goddamn tool

I thought we were done with this  
Your right-winged folly upon us again  
Let face be face, skin be skin  
It's you who's the enemy within!

I defy you  
- the old beast awakened again  
Despise you  
- the old beast awakened again  
I defy you  
Despise you  
Deride you  
I won't have it again
