

Nat Stuckey, I Never Once Stopped Loving You

The nights were dark and long I've spent a million all alone
But I never once stopped loving you
My world was cold and still my dreams lay unfulfill
But I never once stopped loving you
I never once stopped believing we'd love again the way we used to do
And today when you came back my patience was rewarded
For I never once stopped loving you
(guitar)
I could have loved another but I chose the way and suffered
For I never once stopped loving you
And I prayed to God to guide you till I could be beside you
And I never once stopped loving you
No I never once stopped believing...
