

# Nat Stuckey, Sock It To Me Country Style

I got a thing about the long haired women their identity drives me wild  
And dancin' girls with painted eyes in mini skirts and bye bye eyes  
Guarantee to make me smile  
And those wings and rings and uptown things may hold my intention for a while  
But if you wanna keep me round then let your hair hang down  
And sock it to me country style  
I dig a lot about a new generation and the clothes they wear ain't bad  
I didn't design those clothes and funny little shirts  
And knee high boots and mini skirts but now I kinda wish that I had  
I like cowboy shirts and cowboy boots and Levi's and I like girls who like my style  
So if you wanna keep me round then let your hair hang down  
And sock it to me country style  
( guitar - steel )  
I dig a lot about a new generation...
