

# Nat Stuckey, Together Alone

( Nat )

So many things to see in this old world but all I can see is you

( Connie )

In a crowded subway train walkin' in the country rain you're there with me too

( Nat )

All of the songs sung in any day your voice is all I hear

( Connie )

Though each song has its own place finished quickly fades away I hear you everywhere

( Nat )

And though I know you want me pleased with everything I do

( Connie )

Honey I can find the way to open look what I don't like about you

( Nat )

Well it's been said many times that we are by ourselves and each man is on his own

( Connie )

I don't care that may be true I just wanna be with you

( Both )

Together alone

And though I know you want me...
