

# Natalia Druyts, Higher Than The Sun

Your love's like a symphonie  
Your love's like a piffany  
Boy, you make my love-life burning higher and higher  
Your love's got just what it takes  
A rollercoaster without breaks  
And the devil in my soul, it just caught fire  
I get up lifh my hands  
And my head starts spinning around  
Got me high as a kite, got me floating  
OOh... I can't come down

You make me weak  
You make me strong  
You've got me higher than the sun  
You give me hope  
You give me joy  
You give me xtc  
A brand new day is coming on  
A brand new me is taking form  
You've got me flying to the skies above

Your love's got the best of me  
Come and take the rest of me  
Boy, you got my body burning with desire  
I get up lift my hands  
And my head starts spinning around  
Got me high as a kite, got me floating  
OOh... I can't come down

You make me weak  
You make me strong  
You've got me higher than the sun  
You give me hope  
You give me joy  
You give me xtc  
A brand new day is coming on  
A brand new me is taking form  
You've got me flying to the skies above

And everytime I see you  
feel like I'm on glory street  
Jump a fence I can mence I can dance  
My heart is skipping the beat

You make me weak  
You make me strong  
You've got me higher than the sun  
You give me hope  
You give me joy  
You give me reavory  
A brand new me is taking form  
A true believer speaking charmes  
You've got me higher than the skies above
