

Natalia Druyts, I've Only Begun To Fight

She wants me out of the action,
She's coming hard.
This ain't the end of the battle
It's just the start
I will not fold under fire
I'm holding my spot.
When she wakes a back on the bottom
I'll be on top.

Chorus:
I've only just begun to fight
You ain't seen nothing yet
I've only begun to fight,
To prove I'm the love of your life
I'm gonna kiss every doubt from your lips baby
I've only begun to fight

More than just knowing you want it
It's knowing how bad
To keep it you've got to be on it
With all that you have
She thinks that she'll be the victres
She should think twice
'cause I'm in this game to the finish
and I won't play nice.

Chorus

You find every woman you need right here
I won't let you forget what you got
Just get it hot

Chorus

Don't count me out
I've only begun to fight
Don't count me out
I've only begun to fight
