

# Natalia Kukulska, Fantasies

I have spent my life moving on with my fantasies  
Just to figure out what another day would bring  
I will never stop  
Got the feeling I can change my ways  
I can crush your mind  
I enjoy the game  
You can reach the sky  
It's not over  
Open up your heart  
It's not over now...not over  
We both know about (doing that) well  
Keep it all over the space  
I have spent my life movin' on with my fantasies  
Just to figure out what another day would bring  
I'll be your temperature...when it grows  
I'll be the goose bumps on your skin  
When it's getting cold  
You can reach the sky  
It's not over  
Open up your heart  
It's not over now...not over  
We both know about (doing that) well  
Keep it all over the space
