

# Natalie Brown, You're Mysterious

You're mysterious  
I wonder what's behind your smile  
I wish that you would stay sometime  
Ooooh, Ooooh  
It would be so nice  
You're mysterious  
A shadow in my dreams, sublime  
A misty rain that falls so fine  
Ooooooh, Ooooooh  
Caressing me

Will you let me inside  
Be a part of your life  
And your light  
Let's begin  
We could write our own song  
Make the melody strong  
We belong  
Let me in

You're mysterious  
I wonder if I catch your eye  
And do you even notice when I smile  
At you  
As you walk on by  
It's mysterious  
This feeling that you're part of me  
A glimpse of what our love could be  
If we  
Were together
