

# Natalie Browne, You Gotta Believe

You've been thinking about your life  
And wondering what to do  
You have some big dreams inside  
But how do you see them through  
When you don't know where to go  
To make a start  
Tell ya what, listen to your heart  
Focus on the prize, dreams will be realized  
No matter what people say, keep going anyway

Chorus:

You gotta believe, believe in you  
You gotta have faith, faith in all you do  
You gotta stay strong, no matter what comes your way  
Get on your knees so you won't stray  
You gotta believe

Sometimes when you  
Have a dream to achieve  
Things get rough and tight  
But ya gotta believe  
That if you stay in the game  
You'll come out on top  
So give it your all, don't ever stop  
Focus on the prize, dreams will be realized  
No matter what people say, keep going anyway

Bridge:

Focus so you won't stray  
No matter what people will say  
Keep on going, do your best  
Know that you will be blessed
