

Natalie Cole, To Whom It May Concern

To whom it may concern
You've found another love, I know
To whom it may concern
My heart won't ever let you go
You tore my heart apart when you found somebody new
But you found out that your heart could be broken too, so

To whom it may concern
You've learned that heartache has no pride
Pretending unconcern won't stop those tears you try to hide

And when you're all alone
With just a memory
That's when I bet you'll learn the one who's most concerned is me

And when you're all alone
With just a memory
That's when I bet you'll learn the one who's most concerned is me
