

# Natalie Durham, Never Been Better

maybe in the future everything will be free  
what goes around wont come around and we could be together  
perhaps i will be better and live a little more  
but i dont know if that could ever happen

let me tell the story of a day that never came  
of once i was so happy that nothing could go wrong  
but i have yet to know how it feels to really smile  
all love is lost as i sit here alone

ill say, ill say, ive never been better  
ill say, ill say, im the very best ever  
ill say, ill say, ive never been better  
but really ive never, been better then ok

everyone will tell me in the future you will see  
that i was so wrong to think i was alone  
there were so many around me just didnt look  
too bad that really doesnt matter to me

in the future it wont matter who was here today  
what will count in my mind is who is still there  
a lake is nothing without water  
and youre the water in the lake inside me

ill say, ill say, ive never been better  
ill say, ill say, im the very best ever  
ill say, ill say, ive never been better  
but really ive never, been better then ok

im like the sunset you all want to see  
im like the hero you all want to be  
but in the end you will all see  
that there is nothing special in me

ill say, ill say ive never been better  
ill say, ill say theres nothing wrong with me  
(but) youll see, youll see im under the weather  
never been better never happens to me
