

Natalie Durham, Take Me Away

Take me away from this place i forgot,
if you come then nothings keeping me here
is no place that i want to be
can't you see the things they put me through
the smog i see you walkin from the world
-ly treasures and pleasures that dont seem to be treating well so..

take me away from this place i forgot
if you come then nothings keeping me here
is your new life like 123, dont we all wish
thats how life could be
-fore you leave just one more hug
and tomorrow we'll take our journey
or so we say most every day
cuz we can't pull ourselves away

take me away from this place i forgot
if you come then nothings keeping me here
is the park we used to play at not so long ago
our lives and stories always grow no matter where we really go
-ing nowhere is somebody elses somewhere too so how bout you
and i we fight for glory the perfect ending to a story
time is over take me away take me away and

take me away from this place i forgot
if you come then nothings keeping us here
is no place that we want to be
can't they see the things they put us through
