

Natalie Grant, Captured

It must mean something
When I close my eyes
Visions of You come to me and flood my mind
It must mean something
When my heart is true
All that I can think about is You

(Chorus)
Everywhere I go You find me
Even when I run
I'm captured
I'm captured in You
Everywhere Your love surrounds me
I cannot escape
I'm captured
I'm captured in You

It must mean something
When I'm standing still
Yours is the only voice I wanna hear
It must mean something
That I've come this far
Lifting up my hands and offering my heart

Everywhere I go You find me
Even when I run
I'm captured
I'm captured in You
Everywhere Your love surrounds me
I cannot escape
I'm captured
I'm captured

You are the sky
You are the sea
You are the air I wanna breathe
You're everywhere
Your love lasts forever
And if I fall
You won't let go
You hold me when I can't hold on anymore
You reach out and rescue me

Everywhere I go You find me
Even when I run
I'm captured
I'm captured in You
Everywhere Your love surrounds me
I cannot escape
I'm captured
I'm captured
