

# Natalie, If You Only Knew

If you only knew if I got you alone  
All the things I would do to you  
Show you all the things you've never seen before  
All the things you're grillin' to  
Leave all your friends and come with me  
There's things I wanna do to you  
I like the way you're watchin' me now let me do a little dance for you  
Like this

I'll shake it for ya, baby  
I'll turn around for ya  
I'll take it low and pick it up and put this thing on ya  
I'll do it so right  
I'll move it left to right  
It's so good I'll make you think about it automatic

They saw you dancin' that pull us closer  
Lookin' in your eyes, all I rather be  
Boy, I wanna know ya  
Come on and move a little bit with me  
I know you do like what you see  
I know you want it  
Come on over and jump on it

On and on  
On and on  
On and on  
On and on

I'll shake it for ya, baby

Here's the young heff  
We can freak all night  
Take you to the crib, we can cut out the light  
Blow a little leave we can keep it low  
I do it so good I'll make you say

I like the way you thing it, you know what you're lookin' for  
From the way you move to your attitude  
Ooh, baby, you make me want you more  
I know you're feelin' on with what you see  
If you can't wait to get along with me  
I know you want it, come on, boy, jump on it

Hey little mama, play with a tease  
If you're down to please, go down on me  
Please believe, it's not make-believe  
Just note from me I'm not the man to be  
Playin' same shit like you down  
Take you to the crib with the whip to do it right now  
Everything you're tellin' me, I hope it's true  
Girl, I can't wait to go home with you

I'll shake it for ya, baby  
I'll turn around for ya  
I'll take it low and pick it up and put this thing on ya
