

Natalie, Stay

Take all I'm going to give to you
What I have is true
You're the one for me
Everything I feel inside is
sweet You make me love so deep
You're the one for me
I can feel it now
What all it really means
it's beautiful
what we have is a special thing
I owe you for showing me
Love is real, taking me far away to a better place

[Chorus]

Anything you want, anything you need, anything your heart desires
I'm here for you, You take me higher
What you feel what you say, what you do when you smile, my days are brighter
I'm loving you
Please don't you go away
I want you to stay
where your heart remains
forever, tomorrow, today, everyday don't change
I'm by your side
looking in your eyes
Happy together, forever
I can see my life
I want you to stay
where your heart remains
forever, tomorrow, today, everyday don't change
I'm by your side
looking in your eyes
Happy together, forever
I can see my life

Now that I have you hear with me
I won't let you leave
I promise you my best
The things you say to me
I melt, I can't control myself
I promise you my best
That I can give
Complete happiness
So sure, not a doubt in your mind we will ever fall
please let me continue to
be the one, your only one, yes the one you give her eye

[Chorus]

Ohhhh oohhh oohh ohhhh, ooooooh ooh oohh. [x4]
