

Natasha Thomas, State Of Mind

Everyone tries to tell you what to do
Most times when they don't even know you
But playin' it small is not the way to go
Don't be afraid to let your true self show
Gotta be strong minded and stand out
Don't just blend in with the crowd
In order to leave it all behind
You just gotta to change your
State of mind

Everyone's always gonna try
To convince you
That they all know better
So do please them
Most young dreamers would do whatever
And forget that their own opinions matter
Keep you head up
And feet your on the ground
If you let them take it too far
There's no turning round
Don't you think that it's about time
To change your state of mind

You were made one of a kind
Just look a little deeper
You'll be surprised what you find
Strength and peace of mind
Don't be afraid, don't be afraid to shine
It's all about your state of mind

Embrace your individuality
It's never better to fake it than to speak honestly
But playin' it small just ain't the way to go
Don't be afraid to let your true self show
Gotta be strong minded and stand out
Don't just blend in with the crowd
In order to leave it all behind
You gotta to change your
State of mind
