

Nate Sallie, Lead Us

Under the street lights
The rain's coming down
No one's out tonight
I'm walking around alone
'Cause it's quiet here
I'm just trying to think
Are you real
Out here on the street

Jesus
Come and lead us
There's no easy way out of
The night
Jesus
Come and free us
You're the only way into the light
Jesus
Save our lives

She's seen it all
She's barely sixteen
And it's a crime to be
Young and afraid and alone
We all make mistakes
We all get lost
So we come to you for
Forgiveness and a second chance

Jesus Come and lead us
There's no easy way out of
The night
Jesus
Come and free us
You're the only way into the light
Jesus
Save our lives

Show us
Lead us
On from this place
How we need you
To give us
The strength that it takes
We're right here
Right now
Cryin' out
We're cryin' out

Jesus
Come and lead us
There's no easy way out of
The night
Jesus
Come and lead us
You're the only way into the light
Jesus
Save our lives

Save our lives
