Nathalia Ramos, BAM

Never thought I'd fall in love Now I stand corrected Never thought I'd feel what I feel Never been so affected

Now I Know what I know but right now it seems so subjective Oh oh

You surprised me, hypnotized me, found my weakness, then you creeped in, BAM! To my heart then BAM! Oh you started to make my whole world just explode

BAM! My life has changed BAM! Can't concentrate BAM! I was okay until we met that day then BAM! I am obsessed BAM! Can't get no rest BAM! Ever since we met I think I know what love is BAM! I felt so secure with these walls around me Boys would take me out but bring me back where they found me And there's no harm, no foul Cause they never got a chance to know me Yeah You surprised me, hypnotized me, found my weakness, then you creeped in, BAM! То mv heart then BAM! Oh you started to make my whole world just explode BAM! My life has changed BAM! Can't concentrate BAM! I was okay until we met that day then BAM! I am obsessed BAM! Can't get no rest BAM! Ever since we met I think I know what love is BAM! And if I had to walk A million miles To find your smile I would You know I would babe

And if you took a trip to Costa Rica

And told me I meet ya I would

I would I would babe

BAM! My life has changed BAM! Can't concentrate BAM! I was okay until we met that day then BAM! I am obsessed BAM! Can't get no rest BAM! Ever since we met I think I know what love is BAM!

You surprised me, hypnotized me, found my weakness, then you creeped in, BAM! To my heart then BAM! Oh you started to make my whole world just explode

BAM!
