

# Nathan Dawe x Anne-Marie x MoStack, Way Too

Really wanna call you  
But if i called you up  
Would that be wrong  
It's funny how i loved you  
Then suddenly you're nothing but a song

Summer in the back of your car  
Singing Drake in the dark  
I've been reminiscing about our love  
I can't help but i think about you  
And the way that it was  
I wish i could let go of us

It's been way too long  
Oh, It's been way too long  
Oh, Oh, It's been way too long  
been way too long  
since you've been gone

(..?..)

It's been way too long  
Oh, It's been way too long  
Oh, Oh, It's been way too long  
been way too long  
since you've been gone

Summer in the back of your car  
Singing Drake in the dark  
I've been reminiscing about our love  
I can't help but i think about you  
And the way that it was  
I wish i could let go of us

It's been way too long  
Oh, It's been way too long  
Oh, Oh, It's been way too long  
been way too long  
since you've been gone

It's been way too long  
Oh, It's been way too long  
Oh, Oh, It's been way too long  
been way too long  
since you've been gone
